PERSONAL PROJECTS

CRUD Operations

- It consists of Student Login, Admin Login, and Company Login.
- There will be no need of putting up notice or emailing every student about the company coming in college. The students can keep updated themselves through this software.
- The Company can view all student's details and system can shortlist student's according to their criteria instead of doing manually.

User TO_DO_LIST

- JavaScript **Project** on To- do List. The **project** is a single webpage containing different **list** items and a text area to add custom tasks. The "Add" button lets the user add an object to the **list**. We have the facility to check the items from the **list** or remove them if we want.
